

SAHIL GITE

Nashik, Maharashtra | +91 9373782446 | sahilgite511@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

BCA graduate with experience in web development through projects. Worked mainly with React, Node.js, Express.js, MongoDB and MySQL across frontend, backend and full-stack development. I enjoy working in a team and learning new things while working on projects. I am looking for an opportunity to start my career and grow as a developer.

EDUCATION

Bachelor of Computer Applications (BCA) <i>Sandip University, Nashik CGPA: 7.92</i>	2022 - 2025
12th - Higher Secondary Certificate <i>Nutan Vidyamandir, Deolali Camp, Nashik Percentage: 67.17%</i>	2019 - 2021
10th - Secondary School Certificate <i>Janata Vidyalaya, Pandhurl, Nashik Percentage: 73.20%</i>	2018 - 2019

SKILLS

Languages: Python, JavaScript
Technologies: React, Node.js, Express.js, Tailwind CSS
Databases: MySQL, MongoDB
Tools & Platforms: Git/GitHub, Render, Netlify

EXPERIENCE

Full Stack Developer Intern - Wind Hans Technology, Nashik - Worked on backend development tasks and contributed to building and integrating APIs for web applications. - Gained exposure to a real-time, professional development workflow in an offline internship setting.	1 Month
AI Intern - AICTE TechSaksham (Remote) Learned Artificial Intelligence and Machine Learning fundamentals and worked with basic concepts related to the field using Python.	1 Month

PROJECTS

CareerNova - Job Portal Full Stack Developer Live Demo <i>React, Node.js, Express.js, MongoDB, JWT, Multer, AWS S3, Render, Netlify</i> - Built a full-stack job portal covering both frontend and backend, with secure JWT-based authentication, resume uploads and application tracking. - Developed an admin dashboard to manage listings and applications, and integrated AWS S3 for resume storage. - Deployed the backend on Render and the frontend on Netlify.
Employee Attendance System Backend Developer Live Demo <i>Node.js, SQL, Tailwind CSS, DigitalOcean</i> - Worked on backend functionality for an attendance and leave management system, including authentication, employee management and role-based dashboards. - Implemented attendance tracking and leave request workflows using Node.js with SQL database operations. - Deployed the application on DigitalOcean.

CERTIFICATIONS

- Getting Started with AWS - Simplilearn
- MERN Stack Development - Apna College
- HackerRank JavaScript Certification
- Google UI/UX Design - Coursera

ACHIEVEMENTS & LEADERSHIP

- 2x 1st Prize - Poster Presentation Competition, Sandip University
- InitHacks 2023 , SVKM Institute of Technology , Dhule
- SunHacks 2024 ,Sandip University,Nashik
- NASA Space Apps Challenge (2022, 2024, 2025)
